The government has directed all medical coaching centers to suspend their activities till the admission tests for medical and dental colleges are held.

The order came through a circular issued by Health Ministry on Monday with a view to ensuring transparency in the admission tests for medical and dental colleges which are scheduled to be held on October 24.

The Health Ministry noted that there are allegations that fraud and corrupt syndicates based on coaching centers, or on internet connectivity, are spreading '100 percent common suggestion' among the admission aspirants in exchange of money.

The Health Ministry also asked the Home Ministry, the police and the Rapid Action Battalion (Rab) for taking necessary steps to ensure enforcement of the order.
